VOL. XIII, NO. 132. TONOPAH, NEVADA, THURSDAY EVENING, MARCH 6, 1913. PRICE 10 CENTS

ADVOCATE RECALL OF COMMISSIONERS CITIZENS EXPRESS INDIGNATION AT ACTIONS OF BOARD

REFUSAL OF OFFICIALS TO TAKE ACTION IN PROPOSAL TO PURCHASE SEWER COMPANY CAUSES RUPTURE

Recall was the cry of the mass meeting of citizens held last night to hear the report of the committee on a municipal sewer system who had submitted the question to the board of county commissioners. Never was greater surprise expressed at the outcome of a vital issue, indignation reached fever heat when Tregloan, chairman of the committee, after reading the reply of the board, stated the attitude of the commissioners was like a bolt of lightning out of a clear sky. It was a complete reversal of the sentiment expressed by the board on receiving a petition for submission of a bill to the legislature authorizing a bond issue in the event that it was deemed necessary to take over the present system to be operated under municipal control at a minimum of expense. That the town board sought to stifle the demand by subterfuge was boldly charged. "At the conference the commissioners were enthusiastic over the prospect of establishing a sanitary sewer district under civil control," exclaimed Tregloan, "and when I received their official answer at 5 o'clock this evening I was thunder-struck. The answer fails to answer a single point raised in our petition and this meeting should take steps to find out what influenced the sudden change of heart." "We did not ask the commissioners to assume the slightest responsibility," added J. E. Peck, another member of the committee. "We submitted a statement of the wishes of citizens and taxpayers and put it up to them to provide the ways and means to carry out the suggestion providing the bond issue was approved by a vote of the people. The commissioners did not have to consider the depleted town fund as not a dollar would come out of the town fund and not a dollar expense would be incurred without the will of the people expressed at the polls."

"If the people want a municipal tax sewer system they should go in a body to the court house and tell the commissioners they are not autocrats or czars, but the servants of the people. They should be reminded of this fact in unmistakable English and also told there is such a law as the recall to keep public officials in the path of duty," was the way Mr. Fitzgerald, the third member of the committee put it.

"Regarding the preliminary expense for a board of appraisers to fix the value of the present sewer system," Fitzgerald added, "we proposed to defray that so the county would not be out a penny if voters defeated the bond issue."

After a lively exchange of sentiment in which the county commissioners were excoriated to a frazzle a resolution was adopted providing for a committee to draft a stinging rejoinder and demanding some more satisfactory explanation than the answer, which served as a prelude to the discussion.

ANXIETY AMERICANS IN MEXICO

(By Associated Press)
GUAYMAS, Sonora, Mex., March 6.—Grave anxiety among 350 American residents of this seaport was aroused today by the report that the federal government will send the gunboat Guerrero to shell the town. Urgent efforts are being made to detain the cruiser Colorado here.

Censorship Established
HERMOSILLO, March 6.—Rigid censorship of news has been installed by the Sonora state government, which is defying the government of Huerta. Railroad offices and telegraph offices of the Southern Pacific have been seized. There is no train service except that conducted by the state authorities. A train of state troops has started south with the intention to burn bridges and prevent the Huerta troops moving from Guaymas where they could be handled.

FROM MOULDERS BENCH TO THE PATHS OF PROSPERITY IS RECORD OF CAMPBELL AND KELLY FIRM

By John C. Martin
Away down in the southeastern corner of Nevada where the Grand Canyon of the Colorado cuts an abyssal gash in the landscape, Nevada rubs up against Arizona. In the air line as the coyote lopes, it is something like 400 miles across arid deserts, fertile valleys of a semi-tropical character, rugged mountains and the impenetrable depths of Death valley. By railroad, or the nearest traveled route, the distance is the best part of a thousand miles. Notwithstanding these obstacles to the cultivation of a neighborly feeling distance has been annihilated by a Tonopah firm whose product sought by the baby state of the union bears the stencil of Campbell & Kelly, Inc., of Tonopah, Nevada.

Last month mining engineers who count themselves stars in their profession were treated to a jolt that shook their self-confidence, shattered their personal esteem and sent their stock of appreciation declining faster than the day when Merger broke the record for a headlong plunge. The convulsion was due to the awarding of a contract for the erection of a 300-ton, 30-stamp mill at Pearce, Ariz., to the Tonopah firm of Campbell & Kelly, Inc., founders, machinery erectors, inventors, designers and all round machinery men who know their business from A to Z.

Very little was known of Pearce, Ariz., until the Commonwealth Mining company, a subsidiary of the Montana Tonopah, arranged to spend anywhere from \$100,000 to a quarter of a million dollars in constructing a mill that would insure dividends for many years to come. The certainty of dividends is as safely predicated as the judgment of the management in selecting a Tonopah firm to build the most important link in the enterprise. No sentiment was coupled with the award which was based solely on merit and confidence. Merit of previous performance and confidence of future fulfillment. No sentiment or friendship could be entertained by the projectors who staked their reputations on the redemption of pledges that would be like so much spume Niagara of indignation if anything akin to failure followed the train of promises.

That is why an Arizona company came to Tonopah to insure results beyond peradventure of failure. The Tonopah men stood the acid test and the true metal glinted in undying colors when the work received the unqualified approval of their judges. Campbell & Kelly, Inc. ran the gauntlet of criticism and emerged not only unscathed but crowned with laurels. These trophies were wrested from corporations backed by multi-millionaires fortified with decades of experience and backed by bankers who would not hesitate to honor their drafts for anything involving six ciphers. The intertidity

TURKISH FORTRESS IS CAPTURED

(By Associated Press)
ATHENS, Greece, March 6.—The Turkish fortress of Janina, the key to the possession of the province of Epirus, with a garrison of 32,000 men, surrendered to the Greek army today, after a brilliant defense. The surrender was preceded by a fierce bombardment lasting without cessation for two days and nights. Every available gun was brought to bear on the forts defending the beleaguered city.

Gradually the Turkish batteries were silenced. The Greek commanders, by a feint, led the Turks to believe an attack was to be made from the right when large bodies of infantry were hurled on the Turkish left. The Ottoman troops, utterly surprised, fell back in disorder.

The Greeks pushed forward the movement of occupying the Turkish batteries until the troops deployed on the plain in front of the city. The Turkish soldiers were panic stricken and rushed madly into the city, the Greeks following almost to the walls. Essad Pasha, the Turkish commander, at 6 o'clock this morning, sent messengers under a flag of truce to Crown Prince Constantine of Greece, announcing the surrender of the city and all his troops.

Greece Gains Power
LONDON, March 6.—The fall of the Turkish stronghold Janina places Greece in a much stronger position to deal with Bulgaria when it comes to a division of the spoils of war.

Greek Transports Sunk
VIENNA, March 6.—The Turkish cruiser Hamidieh sunk three Greek transports loaded with Servian troops on the way to Scutari, according to Constantinople dispatches.

TONOPAH CHAMBER OF INDUSTRY IS FORMALLY ORGANIZED AND IS NOW READY TRANSACT BUSINESS

The Tonopah chamber of commerce was the name chosen last night for the proposed organization to boost and promote the industrial, educational and civic interests of Tonopah.

The meeting was held in the office of Harry Eptine. The attendance was comparatively small owing to a misunderstanding about the date of adjournment by which the place of meeting was not lighted until Chairman H. H. Bacon at 8 o'clock discovered the oversight.

Leson Balliet, in the absence of W. W. Booth, chairman of the organization committee, read a draft of articles of incorporation and by-laws.

These provided for incorporation with a capital of \$10,000 divided into 10 shares, each member to subscribe for 50 shares payable in installments of \$10 a month with a fixed assessment of \$2 a month. The stock subscription will be used to erect a suitable building on the site donated by H. H. Bacon, where specimens of ore and complete literature and statistics from every mine in the district would be kept on file for ready reference. A reading room with the leading daily newspapers and periodicals will be provided and, in a tentative way, it was suggested that billiard and pool tables would be among the appointments.

The aim of the chamber of industry will be to furnish a worthy and dignified successor to the old Mizpah club which accomplished so much in the early days of the camp.

A soliciting committee was appointed by the chair to learn the sentiments of business men and report on how many of them would rally to the support of the chamber of industry.

Balliet reported that he had approximately \$700 in sight for the moving picture subscription, if Philadelphia advices favored the suggestion of Mr. Knox that his companies subscribe \$100 each toward the movie.

The meeting then adjourned to meet Wednesday night at Eptine's office, when definite action will be taken on both the chamber of industry and the municipal sewer system.

EXHIBITION OF BAG PUNCHING ROPE JUMPING

BOXING BOUT WILL ALSO BE STAGED MONDAY NIGHT AT NEVADA THEATRE

James R. Murphy, champion bag puncher and rope jumper of the world, will box at the Nevada theatre on Monday night, March 10, with Charles R. Brush, the fighting cyclone from Pennsylvania. Two fast preliminaries will also be staged during the evening. In addition Murphy will give an exhibition of fancy bag punching and rope jumping, guaranteeing to skip the rope 100 times in 20 seconds.

Through special arrangement with Charles A. Pryor of the Yale Feature Film company moving pictures will be taken of the fight by rounds and of the spectators. Special lights will be installed in the house for this purpose.

EAGLES PLAN CONSTRUCTION OF OWN HOME

OPTION HAS BEEN SECURED ON TONOPAH BLOCK LOT ON BROUGHER AVENUE

Plans for the purchase of a site and the construction of their own home are being considered by Tonopah Aerie No. 271, Fraternal Order of Eagles. The Eagles have long been in favor of owning their own home building and several committees have conducted investigations in the past. Recently a building committee was appointed and an option has been secured on the lot on Brougher avenue, opposite the Bonanza office, formerly occupied by the Tonopah block.

The committee has asked for bids for the construction of a two-story building, 49x100 feet in dimension, and as soon as the bids are opened and the cost of the structure ascertained, a report will be made to the lodge and definite action is expected. The majority of the members of the local aerie are understood to favor the purchase of the Tonopah block site, although a few are advocating the securing of a site on upper Main street. The central location of the Brougher avenue lot appears to be the chief attraction and should the lodge decide to construct its own building it is probable the Tonopah block site will be purchased.

The advertisement for bids states that all bids must be submitted by March 12. On March 14, when the lodge meets, the committee will have its report ready for submission and the final action will be taken that evening.

DARROW MAKES ELOQUENT PLEA FOR LIBERTY

COURT ROOM SPECTATORS ALL IN TEARS AS HE CONCLUDES HIS ADDRESS

(By Associated Press)
LOS ANGELES, March 6.—"They would send me to the penitentiary because I am an enemy to the rich." With this plea, Clarence Darrow continued the argument today on his own behalf on the charge of having bribed McNamara jurors. He closed with an eloquent appeal, saying: "Where men toil with their hands and woman, worn, weak and weary are sewing tears into the garments to be worn by the rich, I know there are prayers going up for me today; prayers that this jury will free me."

Many women in the court room wept. District Attorney Ford will close the case and it will go to the jury this evening.

WAR DANCES AT NEVADA THEATRE THIS EVENING

REPRESENTATIVES OF THREE INDIAN TRIBES WILL GIVE EXHIBITION

Indian war dances and other mysterious rites of three coast tribes will be performed at the Nevada theatre this evening by a company of Indians from the Bishop Creek district. Three different tribal dances will be given, the Bannock, Digger and Owens Valley dances. The various events have been rehearsed for several months by the participants and have been declared true to life by those who have witnessed past performances. The Indians arrived in Tonopah early this week and since their arrival have held daily rehearsals.

Costly costumes will be worn by the Indians. The garments were manufactured by the squaws of the different tribes and are quite valuable. Buckskin is used in lieu of cloth and is highly decorated with beads and ornaments.

The Indians gave several performances at Bishop Creek and tributary towns before coming to Tonopah, and according to press reports the exhibitions were highly satisfactory. The show this evening will start at 8:45 o'clock.

SENATE CONFIRMS THE NOMINATION OF CLARK
(By Associated Press)
WASHINGTON, March 6.—Edgar E. Clark, confirmed yesterday as interstate commerce commissioner, was named today as the successor of Lane as chairman of the commission.

FLIES 118 MILES IN HOUR

PARIS, March 6.—The French aviator Guillaux made a flight yesterday from Savigny-sur-Braye to Paris in one hour. The distance is 190 kilometers (118 miles).

REAL PLAYERS MAKE REAL BETS IN REAL GAMES

GAMBLING IS WIDE OPEN AND EVEN POLICE OFFICIALS TAKE HAND IN GAMES

With hundreds of people crowding the Big Casino today, moving pictures were taken at noon, showing gambling games running full blast. Every table was crowded with players and chips were bet with a recklessness that would have caused a stranger in our midst to believe that the days of 1902 had returned without a change. The pictures were real to life, with real gamblers conducting the games and players with experience making the bets. Even the manner in which the various dealers raked in the chips was realistic. The only part that was not real, was the losses sustained by the players.

Tonight pictures will be taken of the dance hall with dancing in progress. The merry whirling on the dance floor will be vastly different than the scenes usually staged in pictures supposed to represent the west. There will be nothing objectionable in the pictures and an invitation has been extended to the public to be in attendance.

Governor Oddie, who was invited to participate in the pictures, will arrive in Tonopah Saturday morning, a telegram to this effect having been received last evening. The governor will spend one day here, returning to Carson Sunday morning.

TEMPERATURE REPORT
Highest temperature yesterday, 56; a year ago, 45; lowest last night, 35; a year ago, 33.

NEW PATRONAGE RULE OF WILSON GIVEN DEMONSTRATION WHEN HE REFERS MATTERS TO DEPARTMENTS

(By Associated Press)
WASHINGTON, March 6.—President Wilson gave a practical demonstration of the new patronage rule today when Senators Bryan and Fletcher of Florida called to discuss federal appointments in their state. He received them courteously and asked them to make their recommendation to the attorney general.

No Change in Foreign Policy
WASHINGTON, March 6.—The indications that no immediate changes of foreign policy of the government was contemplated for the present was afforded today when Secretary Bryan approved letters of instructions sent to American representatives abroad in countries where stirring events are happening.

Engineer Reinstated
WASHINGTON, March 6.—The last act of Secretary Wilson was the reinstatement of C. G. Elliott as chief engineer of drainage investigation, from which he was dismissed because of his attitude in connection with the Florida everglade investigations.

Wood Is Retained
WASHINGTON, March 6.—Secretary of War Garrison has ordered Major General Leonard Wood to continue under the designation of chief of staff of the army until further orders. The will enable the president

to fully consider the question of a permanent designation.

Ask President's Influence
WASHINGTON, March 6.—President Wilson was today urged by house leaders to use his influence to confine congress at a special session to the enactment of tariff legislation and the passage of the two appropriation bills which failed in the last congress.

MILLERS WILL HAVE MASQUERADE BALL

The dancing public of Millers will not let St. Patrick's day pass without entertainment. A masquerade ball will be held in the mill city on that evening and a glorious time is contemplated. Invitations have been sent to the Tonopah public to attend the gathering and participate in the festivities, and from the manner in which the invitations have been accepted it is assured that a good representation will be on hand from this city.

HOLLAND TO PARTICIPATE IN PANAMA EXPOSITION

(By Associated Press)
THE HAGUE, March 6.—The Dutch second chamber today voted an appropriation of \$300,000 for the participation of Holland in the Panama Pacific exposition.

How You Can Be An Easy Talker

DOUBTLESS you have often envied the man or woman to whom talking seems so easy, especially if you find it hard to start a conversation.

You can make this art yours. THE BONANZA will help you. Read its pages closely and constantly. You will find a hundred subjects for conversation—the affairs of the nation, great philanthropies, news of literature, art, and sport.

You will always be well informed, for the newest is ever presented in THE BONANZA.

Then there are the advertisements. Everybody is interested in them—especially when the cost of living still soars. They contain the latest merchandise news from the most reliable merchants in Tonopah.

Read THE BONANZA closely and constantly every day and you will never be at a loss for interesting conversation. Read its advertisements every day and you will always be posted on where to purchase to best advantage.
